

# This election is about gridlock and traffic congestion!

The election issues may not be ballot initiatives, but where the candidates stand on specific issues determines what the outcome will be, and that will effect you.

You may think “south of the river” development issues don’t matter to you, but since the Aurora exit is already over capacity, and Hubbard does not have a direct I-5 interchange, what happens to Hwy 551 if a \$37 Million expansion happens at the Aurora Airport?

- More Traffic and congestion
- More aircraft noise and overflights
- Loss of farmland and quality of life.

		Wants to expand the Aurora Airport to 6,000 feet	Willing to change the land use system to benefit special interests *
