

This election is about gridlock and noise!

The election issues may not be ballot initiatives, but where the candidates stand on specific issues determines what the outcome will be, and that will effect the residents of Wilsonville.

You may think “south of the river” issues only matter to Charbonneau, but something as obvious as recently grid-locked I-5 Traffic makes it clear we’re all in this together, from Wilsonville to Aurora/Donald.

A \$37 Million expansion of the Aurora Airport will impact everyone in terms of:

- More Traffic and congestion
- More aircraft noise and overflights
- Loss of farmland and quality of life.
