

Kevin Cameron Comments at City of Aurora joint work session of City Council and Planning Commission - October 4, 2018

Transcription of audio tape made by Jerry King

Tim Shea (Planning Commissioner): I have a question for you Commissioner Cameron....you are on record as saying your number one priority is to get this airport (going?) ...(inaudible). What do you see as the benefit to the citizens... Why are you, or what do you see as the benefits of extension.

Commissioner Kevin Cameron: I'm not sure where Mr. Williams came up with that comment and put in an Opinion Piece. I think that's what you're referring to. People can write things but ... (inaudible)...I never said that that was my number one priority and I'm sorry that people write things and say things in (inaudible and in the newspapers....but I've never said this was my number one priority as Mr. Williams quoted, so ...it's a wrong quote.

Kris Sallee (City Councilor): Is it a priority? Is it on your priority list?

Commissioner Kevin Cameron: Is what on my priority list?

Kris Sallee (City Councilor): The growth of the airport.

Commissioner Kevin Cameron: My priority is to represent all the citizens of Marion County, all of them. That's my priority. And I have to make decisions every day when they come before me, and there is no decision here before me tonight. But Mr. Williams lied in that article.

Tim Shea (Planning commissioner): I'm not familiar with the article, I've just heard what people are saying.

Commissioner Kevin Cameron: That's where it comes from.

Tim Shea (Planning Commissioner): So are you in favor, or is that not the case?

Commissioner Kevin Cameron: I think we're here to talk about the agreement and what we notified each other of that's what we're here about. So that I think it's unfair going back and forth about what's going on. I was asked about the annexation of the airport, I mean if you want to annex it that's not my call.
